EXAMS CONCLUDE...RELIEF SURROUNDS THE CAMPUS

Date: 2nd July 2025

The first unit examinations for the academic year have officially ended. We applaud all our students for their hard work and dedication. Students felt a sense of relief and accomplishment after completing

their exams. With the final bell ringing on exam season, our hardworking students could now enjoy a well-earned break!

SUMMER CAMP 1.0: FUN BEGINS FOR LITTLE ONES

Date: 11th and 12th of July 2025

For the first time, we have launched a summer camp for our youngest learners. This fun-filled program offered a perfect blend of learning and play, tailored to suit our youngest learners. Students

from classes Nursery, LKG, and UKG enjoyed a joyful and engaging summer camp filled with lots of laughter.

The first day began with a refreshing yoga session.

This was followed by lively rhymes and action songs and a lot of indoor games. A homemade flower crown was a lovely way to celebrate the beauty of summer and nature.

In a vibrant cultural programme, the children showcased their talents through

dance performances and a fashion show wearing traditional attire and other fancy dresses. The parents were also invited to enjoy the show. The students were awarded with certificates.

MUSIC, DANCE, REMEDIAL CLASSES... THE SHOW MUST GO ON...!!

Even during the summer vacation, learning and creativity haven't taken a break. Our summer music

classes were in full rhythm. Along with that, summer

became more vibrant with our energetic dance sessions.

To support continued academic growth, remedial classes were conducted for students who needed extra guidance.

SUMMER CAMP 2.0: ...FOR HIGHER CLASSES

Date: 23rd, 24th and 25th of July 2025
Classes I–VII had been eagerly waiting for these summer camp moments for a long time. Yoga, action songs, fun-filled indoor games, and water

balloon challenges kept the energies high. The treasure hunt was a particular highlight, as groups worked together to solve clues and find the hidden surprise.

On the second day, everyone set off on a refreshing trekking trip—exploring nature, building teamwork, and enjoying the great outdoors. The trek was a wonderful blend of fun, fitness, and bonding. The last and final day of summer camp began with refreshing yoga. The major highlight that day was

the clay modelling session, where students got hands-on with creativity under the guidance of a professional Fine Arts teacher, Mr. Kishan from Royal

Global University, an Assistant Professor of Fine Arts. It was a joyful and therapeutic experience for our young learners.

TESTIMONIALS

Jitendra Shah, Father of Mihir Shah,
Class 2

As parents of a newly admitted student in Class 2, we are very pleased with our experience so far at St. Xavier's School, Guwahati. From the very beginning, the admission process was smooth and well-organized, with helpful communication from the school staff.

Our child felt welcomed and settled in quickly, thanks to the friendly and supportive teachers. The classrooms are clean and well-maintained, and we appreciate the emphasis on discipline, values, and academic excellence. What stands out the most is the balance between academics and co-curricular activities, which supports the overall development of the child.

We also value the regular updates from the school, as they give us a sense of involvement and confidence in our child's progress. The school environment feels safe, structured, and nurturing.

We are happy to have chosen St. Xavier's for our child and look forward to seeing him grow and thrive here.

Bhargav Teron, Father of
Nayana Teron, Class LKG

St. Xavier's School is one of the finest educational institutions for my child.

I am impressed with the school's commitment to creating a safe and inclusive environment.

My child loves attending this school. The teachers are incredibly supportive and make learning fun. They truly focus on building confidence and helping each student reach their full potential.

Educating the mind without educating the heart is no education at all” -Aristotle
